### Opis produktu

**Wersja językowa książki - angielska. Miękka okładka.**

**Grandmaster Repertoire** is a new series of high quality chess books based on the main lines, written by strong grandmasters. The aim is to provide the reader with a complete repertoire at a level good enough for elite tournaments, and certainly also for the club championship.

Grandmaster Repertoire provides a repertoire to last a lifetime.

Top **GM Boris Avrukh** charts a course towards an advantage with 1.d4. Avrukh is used to facing the best players in the world. In this book he presents an improved version of the repertoire that elevated him to the top 50, focussing on main lines with a kingside fianchetto.

**1.d4 Volume Two** covers the King's Indian, Dutch, Grunfeld, various Benonis, Benko, Budapest Gambit and other minor openings.

**Boris Avrukh** is a chess grandmaster from Israel. He is an Olympiad gold medallist, former World Junior Champion and analysis partner of World Championship finalists.

### Reviews

"As with its predecessor, this volume is a candidate for the best opening book of the year. The coverage is extremely detailed, and every relevant path, main line or otherwise, is presented in spectacular detail. All new ideas are indicated with an "N" for novelty and most of the novelties are clear improvements over existing theory..."

This is an extremely impressive book that will serve ambitious players for years. However, it is geared towards those players who are rated 2000 and up. If you are rated above that level, you should consider buying this book, whether you play 1.d4 as White or face it with Black. These two volumes on 1.d4 constitute the most serious bid for the best and deepest opening repertoire ever presented in book format. I love the author's devotion and dedication to the cause, and I'm confident that his suggested repertoire will find many followers."

"The high-quality Grandmaster Repertoire series has taken this format to a completely different level. The recently published Volume Two of Avrukh's "1.d4" concludes the work begun in style in his first book."

**GM Michael Adams**, The Telegraph

"Two years ago Boris Avrukh's 1.d4 Volume 1 set a standard for opening books. His follow-up, 1.d4 Volume 2 is possibly even better.

Grandmaster Avrukh has done the chess world a great service in writing his repertoire series. No one is perfect. Inevitably some of the lines he recommends will come under fire and here and there small things will have been overlooked, but overall this is a fantastic achievement. Avrukh must have slaved away for hundreds if not thousands of hours. Players from master on up to strong Grandmaster will find 1.d4 Volume 2 to be extremely useful as will ambitious players below this standard and correspondence player, but keep in mind this is a demanding book for the reader as well as the author.

1. d4 Volume 2 is a very well-produced book as is typical of those published by Quality Chess. Despite being thicker than the average phone book it is very sturdily bound which allows it to stay open on any page - not an easy thing for most 600-page books.

Strongly Recommended"
