This second-volume workbook in Davorin Kuljasevic's How to Study Chess on Your Own series is optimized for chess players with an Elo rating between 1500 and 1800 but is helpful for anyone between 1200 and 2000. The astounding success of his How to Study Chess on Your Own made clear that thousands of chess players want to improve their game and like to work on their training at least partially by themselves.

Kuljasevic has used his coaching experience to identify the typical mistakes of club players and create a broad and exciting training schedule to address them. You will be challenged by tasks such as: Solve visualization puzzles; Find the best middlegame move; Find a hidden tactic; Evaluate a critical piece-trade decision or Analyze a practical endgame position.

With these exercises and tools, any chess student can start training immediately.
